(required) _____

****Please note: Your signature indicates you have read and understand the following:***

In instances where a trial host is offering a two (or more) day trial, exhibitors may move into the next class under the following guideline:
The move may NOT be made into a higher level class on the same day that an exhibitor believes he/she has earned their third qualifying score in the lower level class. The move into a higher level class may only be made for the next day. For example: Exhibitor A believes she has finished her Novice title at the conclusion of a Saturday morning trial. Exhibitor A may move into the Open class for the Sunday trial but may not move into the Open class for the Saturday afternoon trial. All information on this form just be complete and legible. In the event the exhibitor has not earned the lower level title, all scores in the higher level class will be invalid.

A copy of this form must be sent with post trial paperwork. The dog's registration number, registered name, handler's name and score must be listed on the Trial Score Log sheet. Scores will not be processed if not listed on post trial paperwork. **Exhibitors must also initial registration number on the Trial Score Log Sheet - if not initialed, score will not be processed.**
